

A. Introduction

FNmarkets One Good Turn — Spin the Wheel Deposit Bonus Program (the "Promotion" or "Bonus Program") is offered by **FNmarkets** (the "Company") to eligible clients (the "Client") under the following terms.

These Terms and Conditions form an integral part of the FNmarkets Client Agreement, Trading Terms, and Policies available on the Company's official website. By participating in this Promotion, the Client acknowledges that they have read, understood, and agreed to these Terms and Conditions.

The objective of this Promotion is to grant additional trading credit ("Bonus") to increase the Client's trading capacity. The Bonus percentage is determined individually for each Client through a randomised Spin the Wheel mechanism, as described in Section C below. The Company reserves the right, at its sole discretion, to modify, suspend, or terminate the Bonus Program at any time and without prior notice.

B. Conditions of Eligibility

The Bonus Program is available to clients who meet the requirements set out in this Section B. Certain features of the Promotion may be accessible prior to full KYC verification, as further described below; however, eligibility to receive, activate, or benefit from any Bonus credit remains strictly subject to full verification.

- **Campaign registration:** This Promotion is available to **new and existing clients** who have completed their KYC.
- **Promotion Period:** The Promotion begins on **May 11, 2026** and ends on **June 15, 2026** (deposit deadline).
- **Bonus initiation deadline:** The Client must spin the wheel on or before **May 24, 2026** to participate. Spins are not available after this date.
- **Deposit deadline:** Only deposits made on or before **June 15, 2026** are eligible for the Bonus.
- **KYC requirement:** The Client must be granted access to the Spin the Wheel mechanism prior to completing the KYC verification process. Any result obtained through the Spin the Wheel shall be provisional and shall not, in itself, confer any right to receive Bonus credit. In order to qualify for, activate, and receive any Bonus credit under this Promotion, the Client must (i) complete the full KYC verification process and be fully verified; and (ii) meet all other eligibility requirements set out in this Section B. No Bonus credit shall be granted, activated or made available to the Client unless and until the Client has been fully verified in accordance with the company's KYC and onboarding requirements.
- **Minimum deposit:** The minimum qualifying deposit amount is **USD 50** (or equivalent in another currency).
- **Maximum Bonus:** The maximum total Bonus amount per client is **USD 3,000**, accumulated across all qualifying deposits during the campaign.

- **Account type:** Only one **Standard (STD) account** selected or created by the Client after spinning is eligible for the Bonus. The Client must select an existing STD account or create a new one after spinning the wheel. ECN, Islamic, or any other account types are not eligible. Once the account is selected, it cannot be changed for the duration of the Promotion.
- **Deposits during promotion period only:** Only deposits made during the Promotion period are eligible. Clients have to directly deposit in their designated STD live trading account to receive the bonus. Internal transfers between FNmarkets accounts are not eligible for a new Bonus. Deposits made to the Client's Wallet will not be eligible for the bonus.
- **One active Promotion per client:** Each Client may hold only one active Promotion at any given time.
- **One spin per client:** Each Client is entitled to one (1) spin only for the duration of this Promotion. The spin result is final and cannot be repeated, appealed, or transferred.
- **Restricted jurisdictions:** The Promotion is not available to residents of Vietnam, China, Indonesia, Thailand, or any other jurisdiction where such promotions are restricted or prohibited by law.

C. Spin the Wheel Mechanism and Bonus Credit Application

Spin the Wheel

Upon meeting the eligibility criteria in Section B, the Client will be presented with a Spin the Wheel interface within the FNmarkets Client Portal. The wheel contains eight (8) slices, each representing a deposit bonus percentage: **10%, 20%, 30%, 50%, 80%, 100%, 150%, and 200%**.

The Client spins the wheel once. The outcome is determined by the Company's system through a randomised, server-side process. The percentage the Client lands on becomes their **fixed Bonus rate** for the entire duration of the Promotion. This rate applies to every qualifying deposit and redeposit made during the campaign window.

After spinning, the Client must select an existing STD account or create a new one. The selected account becomes the sole account eligible for Bonus credit under this Promotion. This selection is permanent and cannot be changed after spinning.

The spin result, the Client's email address, and the MT5 account number of the selected trading account will be stored by the Company's system.

Bonus Credit Application

Clients who make qualifying deposits during the Promotion period will automatically receive a Bonus as Credit at their individually determined Bonus rate (as determined by the Spin the Wheel outcome), up to a maximum cumulative Bonus of USD 3,000, within 24 hours in the designated STD live trading account. If a client makes a deposit into their wallet, they will not be eligible for the bonus. Clients have to directly deposit in their designated STD live trading account to receive the bonus. For the purpose of determining the total cap, any bonus credit

currently held in the designated trading account from prior promotional offers will also be included in the calculation for that specific account.

Bonus Calculation Formula

The Bonus amount for each qualifying deposit is calculated as follows:

$$\text{Bonus Credit Disbursed} = \text{Deposit Amount} \times \text{Bonus Rate (\%)}$$

Where:

- **Deposit Amount** = The amount of the current qualifying deposit.
- **Bonus Rate (%)** = The percentage determined by the Client's Spin the Wheel outcome.

The total cumulative Bonus Credit across all deposits during the campaign will not exceed **USD 3,000** per client. If a deposit would cause the cumulative Bonus to exceed this cap, only the remaining amount up to the cap will be credited. For the purpose of determining the total cap, any bonus credit currently held in the designated trading account from prior promotional offers will also be included in the calculation for that specific account.

Redeposits

If a client makes additional deposits during the campaign period, they will continue to receive a Bonus on each new deposit at their individually determined Bonus rate. The total cumulative Bonus Credit will not exceed the USD 3,000 cap. Once the cap is reached, no further Bonus Credits will be issued, regardless of additional deposits.

The Bonus is non-withdrawable and may be used solely as additional margin for trading. Subject to eligibility, the Bonus will be credited within twenty-four (24) hours. Deposits made to the Client's Wallet will not be eligible for the bonus. The twenty-four (24) hour period commences once the funds are deposited to the designated account.

The Bonus applies only to qualifying deposits made on or before the deposit deadline of **June 15, 2026**. Deposits made after this date will not qualify for the Bonus. The Bonus is valid and active as long as the account remains active and not inactive and compliant with these Terms.

Examples of How the Bonus Applies

Note: The Bonus rate in these examples is illustrative. Each Client's actual Bonus rate is determined by their individual Spin the Wheel outcome.

Example 1 — Single Deposit (Spin result: 50%)

- A client spins the wheel and lands on 50%.
- The client deposits USD 2,000 during the campaign period.
- Bonus = USD 2,000 × 50% = USD 1,000.
- Total trading equity: USD 3,000.

Since USD 1,000 is below the USD 3,000 maximum Bonus cap, the full Bonus applies.

Example 2 — Multiple Deposits (Spin result: 100%)

- A client spins the wheel and lands on 100%.
- First deposit: USD 1,500 → Bonus = USD 1,500 × 100% = USD 1,500.
- Second deposit: USD 1,000 → Bonus = USD 1,000 × 100% = USD 1,000.
- Third deposit: USD 1,000 → Bonus would be USD 1,000, but cumulative total would reach USD 3,500. Only USD 500 is credited (cap reached).
- Total Bonus received: USD 3,000.

The client has reached the maximum total Bonus limit of USD 3,000 and will not receive additional Bonus Credits for further deposits made during the campaign period.

Example 3 — Deposit Exceeding Cap (Spin result: 200%)

- A client spins the wheel and lands on 200%.
- The client deposits USD 5,000.
- Bonus = USD 5,000 × 200% = USD 10,000.

However, since the maximum Bonus per client is USD 3,000, only USD 3,000 will be credited.

D. Withdrawal and Bonus Removal

- **The Bonus cannot be withdrawn** or transferred between accounts.
- **Profits** generated through trading with Bonus funds are **fully withdrawable**.
- Any **withdrawal, internal transfer, or balance movement** of any amount from the designated trading account will result in a **proportional removal** of the Bonus Credit from the account.

Withdrawal Amount Allowed

Before a withdrawal is processed, the system calculates the maximum amount the Client is permitted to withdraw:

Withdrawal Amount Allowed = MIN(Balance, Free Margin – Credit)

Where:

- **Balance** = The Client's current account balance (deposits + profits – losses, excluding Credit).
- **Free Margin** = The Client's available margin after accounting for open positions.
- **Credit** = The current Bonus Credit in the account.

The Client cannot withdraw more than the Withdrawal Amount Allowed.

Proportional Bonus Removal

When a withdrawal is made, the Bonus Credit is reduced proportionally based on how much of the allowed withdrawal amount the Client is taking out:

Credit Removed = (Withdrawal Amount / Withdrawal Amount Allowed) × Credit Available

Where:

- **Withdrawal Amount** = The amount the Client is withdrawing.
- **Withdrawal Amount Allowed** = As calculated above.
- **Credit Available** = The current Bonus Credit in the account at the time of withdrawal.

The deduction is applied automatically at the time of the withdrawal or transfer.

If the Client withdraws the full Withdrawal Amount Allowed, the entire Bonus Credit is removed.

- If the account equity reaches zero, the Bonus will be removed and will not be reinstated.
- In the event of a Bonus removal, any open positions and/or pending orders might be automatically closed or liquidated, and/or cancelled due to margin call stop-out conditions.

Examples of How Withdrawal and Bonus Removal Works

Example 1 — Partial Withdrawal, No Open Positions (Spin result: 50%)

- Client deposits USD 1,000 and receives USD 500 Bonus Credit (50%).
- Account state: Balance = USD 1,000, Credit = USD 500, Free Margin = USD 1,500.
- Withdrawal Amount Allowed = $\text{MIN}(1,000, 1,500 - 500) = \text{MIN}(1,000, 1,000) = \text{USD } 1,000$.
- Client withdraws USD 200.
- Credit Removed = $(200 / 1,000) \times 500 = \text{USD } 100$.
- Remaining Credit: USD 400.

Example 2 — Partial Withdrawal With Open Positions (Spin result: 100%)

- Client deposits USD 2,000 and receives USD 2,000 Bonus Credit (100%).
- Client opens a trade. Account state: Balance = USD 2,000, Credit = USD 2,000, Free Margin = USD 2,800 (some margin is used by the open position).
- Withdrawal Amount Allowed = $\text{MIN}(2,000, 2,800 - 2,000) = \text{MIN}(2,000, 800) = \text{USD } 800$.
- Client withdraws USD 400.
- Credit Removed = $(400 / 800) \times 2,000 = \text{USD } 1,000$.
- Remaining Credit: USD 1,000.

Note: Because the open position reduces Free Margin, the Withdrawal Amount Allowed is lower. Withdrawing a larger share of this smaller allowed amount results in a proportionally larger Credit removal.

Example 3 — Full Withdrawal of Allowed Amount (Spin result: 50%)

- Client deposits USD 1,000 and receives USD 500 Bonus Credit (50%).
- Client makes USD 600 in profit. Account state: Balance = USD 1,600, Credit = USD 500, Free Margin = USD 2,100.
- Withdrawal Amount Allowed = $\text{MIN}(1,600, 2,100 - 500) = \text{MIN}(1,600, 1,600) = \text{USD } 1,600$.
- Client withdraws the full USD 1,600.
- Credit Removed = $(1,600 / 1,600) \times 500 = \text{USD } 500$ (entire Credit).
- Remaining Credit: USD 0.

Withdrawing the full allowed amount always removes the entire Bonus Credit.

Example 4 — Withdrawal After Trading Loss (Spin result: 80%)

- Client deposits USD 2,000 and receives USD 1,600 Bonus Credit (80%).
- Client incurs a USD 500 trading loss. Account state: Balance = USD 1,500, Credit = USD 1,600, Free Margin = USD 3,100.
- Withdrawal Amount Allowed = $\text{MIN}(1,500, 3,100 - 1,600) = \text{MIN}(1,500, 1,500) = \text{USD } 1,500$.
- Client withdraws USD 750.
- Credit Removed = $(750 / 1,500) \times 1,600 = \text{USD } 800$.
- Remaining Credit: USD 800.

E. Internal Transfers

The Bonus is non-transferable between trading accounts under the same Client profile. Only one trading account per Client is eligible to participate in the Bonus Program during the campaign period — specifically, the STD account selected or created by the Client after spinning the wheel. In the event of any internal transfer between accounts, the Bonus will not be transferred; rather, the Bonus amount will be reduced in accordance with the withdrawal rules described in Section D.

Internal transfers, regardless of amount, do not qualify as new deposits and therefore do not generate additional Bonus credit.

F. Inactivity and Bonus Expiry

The Bonus remains active in the Client's account as long as the account maintains trading activity and is in good standing.

In the event that the trading account remains inactive for a period of **90 consecutive calendar days** (i.e., no trading activity of any kind), the Bonus will be subject to immediate forfeiture and automatically removed from the account.

The Company bears no responsibility for any consequences arising from the removal of forfeited Bonus funds, including margin calls or stop-outs resulting from credit deduction.

G. Abuse and Fair Usage Policy

Any indication or suspicion, in the Company's reasonable discretion, of any form of arbitrage (including but not limited to risk-free profiting), abuse, manipulation, cash-back arbitrage, or fraudulent activity related to the Bonus Program shall render the Client ineligible to participate.

Such conduct includes, but is not limited to, trading patterns or behaviours that indicate the Client's sole intention is to benefit financially from the trading credit without genuine trading interest or exposure to market risk.

In these cases, FNmarkets reserves the right, at its reasonable discretion, to:

- Close (either temporarily or permanently) any affected Client's real trading account(s);
- Suspend (either temporarily or permanently) the Client's participation in this or any future promotions;
- Cancel or reverse any or all orders; and
- Annul any profits or losses resulting directly or indirectly from such activity.

The Company further reserves the right to exclude any Client from future Bonus Programs, promotions, or offers without prior notice if it reasonably suspects abuse or breach of these Terms.

H. Risk Acknowledgment

Trading leveraged financial instruments such as Forex and CFDs involves a high level of risk and may not be suitable for all investors. The Bonus credit does not constitute client funds and is not protected under any investor compensation or protection scheme. Clients are solely responsible for any losses incurred while trading with Bonus-enhanced funds.

I. Modification and Termination

FNmarkets reserves the right to:

- Amend, suspend, or terminate this Bonus Program at any time;
- Change eligibility criteria, Bonus percentages, or other parameters without prior notice;
- Refuse or revoke participation for any reason at its discretion.

Any changes will be published on the Company's official website and take effect immediately upon posting. All decisions made by FNmarkets regarding the interpretation or application of these Terms are final and binding.

J. Governing Law and Jurisdiction

These Terms and Conditions shall be governed by and construed in accordance with the laws of the **Republic of Mauritius**. Any dispute arising under or in connection with these Terms shall fall under the exclusive jurisdiction of the competent courts of that jurisdiction. In the event of a discrepancy between translated versions and the English version, the English version shall prevail.

K. Risk Warning

Trading leveraged products such as Forex and CFDs carries a high risk of loss. Clients should ensure they fully understand these risks and seek independent advice if necessary. Past performance does not guarantee future results.

By participating in the FNmarkets One Good Turn—Spin the Wheel Deposit Bonus Program, the Client confirms that they have read, understood, and agreed to these Terms and Conditions.
